- The remaining assets are held in reserve and are related to the following pending matters:
  - Various banks have asserted Claims against Adelpia for interest in excess of interest that was Allowed and paid or otherwise reserved. Such interest is defined as Grid Interest in the Plan. The Plan reserves for such claims total \$117.1 million. Adelpia disputes these claims and the matter is currently pending before the Bankruptcy Court. Discovery in the case recently concluded and a status conference with the Bankruptcy Court is currently scheduled for April 28, 2010.
  - Claims for professional fees incurred in pursuit of the confirmation of the Plan were submitted by various professionals. Such fees are referred to as Settlement Party Fee Claims in the Plan. The Plan reserves for such claims total \$88.1 million. These claims are before the Bankruptcy Court pending approval. To the extent the fees are not approved by the court, they will be returned to holders of Allowed Claims in the Class for which distributions were reduced by the applicable fee claims.
  - The remaining reserves total \$159.1 million and include LIF reserves, Bank Claim reserves, Estate operating reserves, and other required reserves.

Annexed to this report as Exhibit A is an updated chart summarizing the distribution of cash and shares of TWC common stock made to classes of Claims. This chart reflects all distributions made through March 31, 2010. The chart does not reflect (i) the distributions of CVV units or distributions on account of such units from the Adelpia Recovery Trust and (ii) additional distributions that may be made after March 31, 2010 as a result of the release of escrows, reserves and holdbacks pursuant to the Plan.

**Exhibit A**

The following chart summarizes the distributions of cash and shares of TWC Common Stock to holders of claims under the Plan made through March 31, 2010. It does not reflect the distributions of CVV units or distributions on account of such units from the Adelphia Recovery Trust. Actual distributions may vary due to rounding. The chart is based on the assumption that distributions to holders of claims under the Plan made through March 31, 2010, will not be subject to holdback or reduction with respect to any claims of the applicable insurance Trustee. The chart does not reflect additional distributions that may be made after March 31, 2010 as a result of the release of escrows, reserves and holdbacks. The amount and timing of additional distributions resulting from the release of the escrows, reserves and holdbacks are subject to the terms and conditions of the Plan and numerous other conditions and uncertainties, many of which are outside the control of Adelphia Communications Corporation and its subsidiaries.

The following chart summarizes the distributions of cash and shares of TWC Common Stock to holders of allowed claims under the Plan made through March 31, 2010. It does not reflect the distributions of CVY units or distributions on account of such units from the Adelphia Recovery Trust. Actual distributions may vary due to rounding. The chart is based on the assumption that distributions made to Indenture Trustees for the benefit of the underlying noteholders will be distributed to the noteholders and will not be subject to holdback or reduction with respect to any claims of the applicable Indenture Trustee. The chart does not reflect additional distributions that may be made after March 31, 2010 as a result of the release of escrows, reserves and holdbacks. The amount and timing of additional distributions resulting from the release of the escrows, reserves and holdbacks are subject to the terms and conditions of the Plan and numerous other conditions and uncertainties, many of which are outside the control of Adelphia Communications Corporation and its subsidiaries.

(1) The Plan Distributions of fractional shares of TWC Common Stock will be made. Fractional shares shall be rounded to the nearest whole and (with any interest equal to or less than one-half cent) be recorded down.
